

EASY-TO-READ

“Some persons living with intellectual and/or psychosocial impairments, may not be able to use the technological and IT related devices for meeting their information and communication needs. These persons require tailored and innovative information and communication interventions and support services such as **easy to read materials**”.

Пожалуйста, поднимите правую руку, если вы поддерживаете людей с умственной отсталостью.

Ardaigh do lámh dheas má thacaíonn tú le daoine faoi mhíchumas intleachta.

Raise your right hand if you support people with intellectual disability.

Studies show a correlation
between the inability to read
and mental illness.
